Honors-Awards

Bronze Honor | International
Astronomy and Astrophysics
Competition (IAAC) 2021, 2023
National Finalist (Top 5) | KUET
Bitfest 2025
National Finalist (Top 8) | UIU CSE
Fest '25
2nd Runner-Up | Rush Hour (Robo-
Soccer)
Global Finalist | International
Astronomy and Asteroid Search
Campaign (IASC) 2019, 2020

Redwan Ahmmmed

IAAC Bronze Medalist'21 & '23 | IASC Finalist'19 & '20 | Hardware
Specialist (R&D) & Backend Developer @ UIU Robotics Club |
EasyEDA Campus Ambassador | CSE @ United International
University

Dhaka, Dhaka, Bangladesh

Summary

Computer Science & Engineering Student | United International
University

Backend Developer & Robotics Hardware Specialist

I bridge the gap between sophisticated software logic and high-performance hardware engineering. Currently, I drive innovation at the UIU Robotics Club through a dual-impact role: architecting scalable systems as a Backend Developer and optimizing physical performance as a Hardware Specialist in R&D.

My technical journey is defined by a commitment to precision—from optimizing PCB chassis motherboards for Hyperline Robotics to being appointed the EasyEDA Campus Promotion Ambassador. I don't just build systems; I advocate for the professional-grade tools that power them.

Key Technical Expertise:

Software & Backend: Building robust backbones and IoT solutions using ESP32, PSXLib, and C++.

Hardware Engineering: Specialized in high-torque robotic systems and professional PCB design.

Research & Publication: Certified by the Wiley Researcher Academy (Serial No. cert_25612qvw) in the critical components of research articles, ensuring all technical documentation and findings meet global editorial standards.

Space Tech: 2-time Bronze Honor recipient at the International Astronomy & Astrophysics Competition (IAAC) and former intern for the UIU Mars Rover and CanSat teams.

Competitive Track Record:

I am a consistent top-tier performer in national engineering fests, including KUET Bitfest and UIU CSE Fest, where I apply theoretical knowledge to solve real-world robotics challenges.

Whether I am hunting asteroids, soldering complex motherboards, or drafting technical research to Wiley standards, I am focused on engineering solutions that are as efficient as they are innovative.

Experience

UIU Robotics

Robotics & Project Showcase Specialist (Hardware)

December 2025 - Present (5 months)

R&D Wing: Lead hardware engineering for Robo Soccer, Robo Race, and Project Showcasing with a focus on circuit integrity and mechanical durability for national-level competitions.

Software Wing: Architecting and maintaining backend systems for club-wide software projects, ensuring seamless integration between code and hardware.

System Optimization: Implementing low-latency communication protocols for ESP32-based robotic systems to maximize performance and response times.

HyperLine Robotics

Hardware Consultant

January 2026 - Present (4 months)

Optimization: Re-engineered the PCB chassis motherboard for the LFR (Line Following Robot) series.

Results: Fixed routing flaws and component positioning to maximize output stability and performance during high-speed maneuvers.

EasyEDA

Campus Promotion Ambassador

January 2026 - Present (4 months)

Selected as the official Campus Promotion Ambassador for EasyEDA to advocate for professional-grade PCB design standards within the academic community.

Acting as the primary technical point of contact on campus for EasyEDA Pro, assisting students in transitioning from hobbyist tools to professional manufacturing-ready software.

Facilitating knowledge sharing regarding EasyEDA's Certified Teacher Program and educational resources to bridge the gap between theoretical electronics and practical hardware implementation.

Coordinating with EasyEDA management to provide students with access to industry-standard tools for graduation projects and hardware innovation.

Education

United International University

Bachelor of Science, Computer Engineering

Rajshahi Cantonment Public School & College

Higher Secondary Certificate (HSC), Science · (2021 - 2022)

Rajshahi Collegiate School

Senior School Certificate (SSC), Science · (2012 - 2020)
